# GOOD ROADS LEGISLATION IS MAKING SOME PROGRESS

**House Passes Bill For Commis**sioners In Columbiana and Stark.

CLAIR

May Get the Authority They Want Through the Worthington Bill.

BEAL LOCAL OPTION MEASURE

Want Legislation.

From a Staff Correspondent.

Columbus, March 20.-The Metzger road bill, which applies to Columbiana and Stark counties, has been passed by the house and is now half a law It abolishes road supervisors and creers. It also provides for a competitive system of bidding for material for the improvement of roads.

The Crist bill authrozing the residents of St. Clair township, Columbiana county, to issue bonds for the improvement of Calcutta road, has been merged into a bill introduced by Representative Worthington, of Belmont county; for the reason that both measures provide for practically the same purpose, and to enact both would have the effect of annulling each.

consented to the withdrawal of his measure with the understanding that said the change will be made its passage would be incorporated in the former bill.

Mr. Crist presented a bill Wednesday afternoon to provide for the publication and distribution of the reports of the state geologist. The issue shall consist of a minimum number of 3.000 copies, and the publication and distribution shall be under the control of the state printing commission. One thousand copies are to be distributed pro rata among the members of the general assembly and an equal number are to be distributed by the state geologist in exchange for other surveys, and with individuals whose services have been used in the collection and preparation of the matter for such bulletins. One hundred volumes are to be placed in the state library. The commission may at its discretion order the publication of extra copies. Those remaining after distribution has been made may be placed on sale at a price equal to the net cost of printing and binding.

The taxation committee of the sen ate has recommended the passage of the Beal local option bill, and it has been made a special order for next Wednesday. The committee made bill, but did not change its intent or which is increasing rapidly. purpose. The revision committee of the house mutilated the measure fearfully and left it in such shape that it was necessary for the senate committee to doctor up its phraseology. The liquor people put up a stiff fight to have the bill amended in the senate so as to require publicity of the signatures of those petitioning for local option, but the committee refused to allow this provision to go in. The over this defeat for their opponents dismissed. for the provision, if adopted, would make the measure a dead letter. Business and professional men would re- court. fuse to sign in many cases because of the resultant injury to their business if publicity were required.

The Painter canal abandonment bill is said to be a dead issue. The committee on the state board of public works has decided to report the substitute for this bill, which was drawn by Senator Sieber, of Akron. and Attorney McHugh, of Cincinnati. The substitute provides for an increase in the rentals of canal privileges. which, it is claimed, will make the operation of these waterways profita-

#### MAIL ROUTE TROUBLES

Those on the Moultrie Line Have Been Many and Are Still On.

Lisbon, March 20. - (Special) -The troubles of the Moultrie mail route are not yet ended. J. M. Bore ing contracted with the government to carry the mail until July, 1903, for \$409 a year. Boreing sublet his contract to Philpot. The latter became somewhat discouraged, owing to the condition of the roads and the length of the route and hired Comings Stew art, who carried the mail for a short time and then quit.

Boreing then sued Philpot and for some time the route was without a carrier. Elmer Henderson was next secured as carrier, to receive \$3 a day. Henderson had a predisposition to insanity and in a short time was committed to the Massillon asylum. Boreing, who has furnished \$1,000 bond to guarantee the carrying of the mail, then hired Stewart, who was to receive the whole of the \$409 a year for a union concern with at least one of his work, and was given a team of the local merchants. The agreement horses to begin with. Stewart seemwith the union expired in November, ed not to appreciate the dignity of government service and again retired private life last Friday The carriage and wagon workers of E. J. Henderson is now carrying the Cincinnati and Zanesville, 1,900 of mail at \$3 a day. Boreing, with his

And Once Served a Term In the Reformatory at Mansfield.

THE POLICE ARE NOT SURPRISED

To Learn That He Is in Trouble Again, As He Is Said to Have Been Arrested Numerous Times on Charges of Theft.

A dispatch from Zanesville states that James L. Landis, aged 24 years, is in jail in that city, charged with the robbery of a second-hand store. The telegram states that the young man was caught in the act of carrying out goods from the store,

Landis is an ex-resident of East Liverpool, having but recently left here. The crime for which he is now under arrest is not his first offense. The records now in charge of Mayor Davidson show that the young man was at one time a conspicuous figure in local police circles.

On October 19, 1899, Landis was arrested for larceny. On this occasion he stole a lot of knives, forks and spoons from James E. Bowers, then in the hardware business here. It was also proven against Landis that he stole 10 yards of dress trimmings from Jennie Nickels.

Mayor Bough, who was then in office, bound Landis over to common pleas court with the result that he was sentenced to a two-year term in the Mansfield reformatory. Previous to being arrested on the larceny charge the young man was in jail numerous times because of petty thefts he was accused of having committed. He was known to the police here as an all-around crook, and is present trouble is no surprise to the officers who know his record.

#### **ENGINEERS' MEETING**

A Gathering of Importance to Be Held At Youngstown Saturday.

A number of stationary engineers from this city will go to Youngstown Saturday night, where a meeting of considerable importance will be held.

The session will be in the form of an educational meeting, where ideas will be exchanged and improved and modern methods discussed.

State Secretary Robert A. Orin, of this city, and President Hawk, of Cleveland, will attend.

#### OIL AT LEETONIA

A Good Flow Struck at a Depth of 175 Feet From the Surface.

McCoy Bros., who some time ago leased the Arnold farm near Lectonia. to prospect for oil and gas, struck a good flow of oil at a depth of 175 feet. After the flow was struck several barrels of the fluid escaped from the mouth of the hole before the fluid could be plugged.

The hole will be put down to a greater depth and will be shot. Big things are expected.

#### S. OF V. ANNIVERSARY

And Once Served a Term In the Reformatory at Mansfield.

THE POLICE ARE NOT SURPRISED

To Learn That He Is in Trouble Again, As He Is Said to Have Been Arrested Numerous Times on Charges of Theft.

A dispatch from Zanesville states that James L. Landis, aged 24 years, is in jail in that city, charged with the robbery of a second-hand store. The telegram states that the young man was caught in the act of carrying out goods from the store,

Landis is an ex-resident of East Liverpool, having but recently left here. The crime for which he is now under arrest is not his first offense. The records now in charge of Mayor Davidson show that the young man was at one time a conspicuous figure in local police circles.

On October 19, 1899, Landis was arrested for larceny. On this occasion he stole a lot of knives, forks and spoons from James E. Bowers, then also proven against Landis that he stole 10 yards of dress trimmings from Jennie Nickels

Mayor Bough, who was then in office, bound Landis over to common pleas court with the result that he was sentenced to a two-year term in the Mansfield reformatory. Previous to being arrested on the larceny charge the young man was in jail numerous times because of netty thefts he was accused of having committed. He was known to the police here as an ble is no surprise to the officers who know his record.

#### **ENGINEERS' MEETING**

A Gathering of Importance to Be Held At Youngstown Saturday.

A number of stationary engineers from this city will go to Youngstown Saturday night, where a meeting of

considerable importance will be held. The session will be in the form of an educational meeting, where ideas will be exchanged and improved and modern methods discussed

State Secretary Robert A. Orin, of this city, and President Hawk, of Cleveland, will attend.

#### OIL AT LEETONIA

A Good Flow Struck at a Depth of 175 Feet From the Surface.

McCoy Bros., who some time ago leased the Arnold farm near Lectonia. to prospect for oil and gas, struck a good flow of oil at a depth of 175 feet. After the flow was struck several barrels of the fluid escaped from the mouth of the hole before the fluid could be plugged.

The hole will be put down to a greater depth and will be shot. Big things are expected.

#### S. OF V. ANNIVERSARY

To Be Celebrated With Appropriate Exercises Next Tuesday Night.

Next Tuesday evening the 19th anniversary of the institution of General Garfield camp No. 3, S. of V., will be appropriately celebrated.

W. E. Lytle, W. A. Davis and C. B. Applegate have been appointed a committee to arrange for the celebration, and announce that the banquet will contain a number of novel features.

Inga!ls on Butter.

Many years ago, when John J. Ingalls, the brilliant Kansan, was a member of the senate, oleomargarine was a bone of contention. The debate led Ingalls to utter one of those epigrammatic sentences which made him famous. "I have never, to my knowledge, tasted oleomargarine," said Ingalls, "but I have stood in the presence of genuine butter with awe for its strength and reverence for its antiquity."

Not to His Advantage.

"Huh!" grumbled Mr. Skinnay, who was being uncomfortably crowded by the jolly looking fat man. "These cars should charge by weight."

"Why, they'd hardly think it worth while to stop for you."-Catholic Stanuard and Times.

"Think so?" replied the fat man.

Senator Carmack called his attention to the difference between the language used by the president in his instructions and that contained in his (Otis') proclamation, and asked why he had also omitted the words "control." "government," "lawful rule" and "authority must remain supreme.

General Otis explained that when these instructions of the president were received he was somewhat surprised. He was afraid they would be disastrous and assist the Aguinaldo government to excite the people of Luzon. General Otis said he told Admiral Dewey, who had called on him The Crumpacker resolution to the following day, that he did not

#### Good Men Feared Assassination.

The trouble in Luzon, General Otis said, was caused by the good men being overthrown, because of fear of assassination.

Hats trimmed FREE of charge.

THE LEADER

that the government had an absolute and inherent right to protect itself from assaults made either upon it self or upon any of its officers. He maintained that an assault on the president was in the very nature of things an assault on the government. for there never was a time when the president was not in the exercise of ana, the duties of his office. His argument was largely legal and constitu-

and entertaining and instructive. Mr. Hoar, in charge of the measure, elucidated some arguments he had made previously, and Mr. Teller, of Colorado, and Mr. Bailey, of Texas, spoke briefly upon the bill. The Texas senator said he could not su;port the measure as it stands, because he could conceive of an assault made upon the president as a person and not as an official of the government. The assailant, in that event, ought to be punished precisely as if he had assaulted any other citizen.

#### TO FIGHT INDIANS

A TWO-YEAR-OLD CHID PROCUR-ED A PISTOL.

Then Boarding a Car the Tot Started for the West-Policeman Stopped Her.

Carrying a pistol in her hand and declaring her intention of going west to fight Indians, a two-year-old daughstreet, was found on a street car this afternoon by Policeman Stafford.

The officer, after making numerous inquiries, learned where the little girl lived and took her home. She had accidentally come upon the pistol, which her father had placed away in a drawer, and then decided to begin an onslaught on the red skins.

When asked by the policeman what Lisbon, March 20.—(Special)—The she expected to do with the weapon board of supervisors of elections are in her pocket, the tot replied: "Shoot

#### FIRST ANNUAL EXHIBIT

Of the East Liverpool Camera Club Contains Some Highly Cred. itable Work.

The first annual exhibit of the East Liverpool Camera club has been arranged and specimens of work of the members of this organization are now on view in windows on Fifth street. These views and photographs are the work of each individual member and judging from the present exhibit such work has not been excelled in this city, and it might be said with some degree of accuracy, in eastern

There is in the exhibition a large photograph of Miss Nancy Taylor, of Third street, the work of Joseph Harrington, which is indeed clever, notwithstanding it is the work of an amateur. The photograph was taken through a fine silk screen, and it is pronounced the cleverest piece of work exhibited.

The club has decided to make the exhibit an annual affair, and additional pictures will be added to those now on view within a few days.

#### \$1,500 Guaranteed Yearly.

Redman, General Superintendent, Corcoran Building, Opposite United States Treasury, Washington,

A Blind Man's Perception. One of the priests of St. Francis Xavier's church devotes himself to work among the blind and the deaf and

dumb. He says that, contrary to the

general impression, the blind are peculiarly happy and fond of jokes. Illustrative of this, not long since a blind acquaintance of his whose remaining senses, like that of all blind, are exceptionally keen, was in a room

where were some lady visitors. Final-

ly one of the ladies left. "What remarkably white and perfect teeth that lady has!" laughingly re-

marked the blind man. "Why, how do you know?" asked Father Stadelman.

"Because for the last half hour she has done nothing but laugh!"-New York Times.

Leaves Used For Paper. Leaves of trees were used for writing purposes very early by the Egyptians

and probably by the Greeks. The Hindoos continued the use of this material until within a few centuries. Even at not uncommon in the south of India and the island of Ceylon. The leaves of some Asiatic trees, from their size and smoothness, are admirably adapted for books. If we may judge from the name "leaf" being still applied to the paper of books, we should imagine these leaves to have been formerly the prin-

Several members of council are re ported in favor of the city erecting and owning a garbage furnace, the first cost of which is estimated at \$12,500. To carry out this plan action that the question of a bond issue to raise the required amount must be submitted to a vote of the citizens. The plan is well enough in its way, but it does not help to reduce the accumulating garbage piles which will soon become a positive danger, as To a Columbiana Woman on Account they are already a postive nuisance. All bids for the disposal of garbage have been rejected by the committee having charge of the matter, and the now is immediate relief. The city the plaintiff. cannot wait for action by council, acthen for the purchase and erection of eger alleged cruelty. a furnace, even though it should be certain-which is by no means the case—that the city will vote to build one. In the absence of a permanent system for disposing of garbage, we city's requirements and citizens' attention.

Wisconsin, in his declaration that he ing the play a different and far more will never believe in any doctrine that impressive scene for the second act. is a denial of the right of congress Frank Keenan is to be seen in this to define as a crime the assassination city on Friday evening, but he brings or attempted assassination of the a new "Hon. #### POTTERY NEWS

Considerable trouble is being experienced by the workmen at the new addition to Laughlin No. 2, in constructing the tank for the large agitator. The hole is about 6 1-2 feet deep, and when the workmen reported for duty yesterday morning the hole contained about three feet of water. Pumps were procured, but the water came in as fast as it could be pumped out. Yesterday afternoon six men were engaged at the pump, taking turns of three men each. The contractors expect to have enough water out of the hole to permit the bricklayers to go to work today. The walls will be of brick and cement, and there will be little chance for leakage when the wall is once erected.

company at its East End plant within a short time. Arrangements have been made to install a new engine of a larger horsepower than the one now in use, and this was expected to arrive evening on the Queen City for Cinat the factory this week. Some delay cinnati and Meredian, Miss: Mr. and has been occasioned, however, and it may not be here for several days. The plant will be idle while the engine is Breen. being placed in position, the suspension to be taken advantage of to make other improvements.

Announcement has been made that work on the improvements to the Smith & Phillips will be commenced not later than the first of the month. The alterations will consist of the erection of an additional kiln and the removal of the sagger shop to a new building which will be erected west of the railroad siding, directly opposite the present sagger room.

Robert Finley, of Sebring, formerly member of the local police force, was in the city yesterday visiting relatives. Mr. Finley is employed as a kilnhand at the Sebring pottery, and states the factory has lost practically no time since the holidays. He may return here but has not definitely de-

#### TO FIGHT INDIANS

TWO-YEAR-OLD CHID PROCUR-ED A PISTOL.

Then Boarding a Car the Tot Started for the West-Policeman Stopped Her.

Carrying a pistol in her hand and declaring her intention of going west to fight Indians, a two-year-old daughter of Charles Richardson, of Walnut street, was found on a street car this afternoon by Policeman Stafford.

The officer, after making numerous inquiries, learned where the little girl lived and took her home. She had accidentally come upon the pistol, which her father had placed away in a drawer, and then decided to begin an onslaught on the red skins.

When asked by the policeman what she expected to do with the weapon board of supervisors of elections are in her pocket, the tot replied "Shoot

#### FIRST ANNUAL EXHIBIT

Of the East Liverpool Camera Club Contains Some Highly Creditable Work.

The first annual exhibit of the East Liverpool Camera club has been arranged and specimens of work of the members of this organization are now on view in windows on Fifth street. These views and photographs are the work of each individual member and judging from the present exhibit such work has not been excelled in some degree of accuracy, in eastern

There is in the exhibition a large photograph of Miss Nancy Taylor, of Third street, the work of Joseph Harrington, which is indeed clever, notwithstanding it is the work of an amateur. The photograph was taken through a fine silk screen, and it is pronounced the cleverest piece of work exhibited.

The club has decided to make the exhibit an annual affair, and additional pictures will be added to those now on view within a few days.

A Blind Man's Perception. One of the priests of St. Francis Xavier's church devotes himself to work

among the blind and the deaf and dumb. He says that, contrary to the general impression, the blind are peculiarly happy and fond of jokes. Illustrative of this, not long since

a blind acquaintance of his whose remaining senses, like that of all blind, are exceptionally keen, was in a room where were some lady visitors. Finally one of the ladies left. "What remarkably white and perfect

teeth that lady has!" laughingly remarked the blind man. "Why, how do you know?" asked

Father Stadelman. "Because for the last half hour she

has done nothing but laugh!"-New

Leaves Used For Paper.

Leaves of trees were used for writing purposes very early by the Egyptians and probably by the Greeks. The Hindoos continued the use of this material until within a few centuries. Even at the present time books of leaves are not uncommon in the south of India and the island of Ceylon. The leaves of some Asiatic trees, from their size and smoothness, are admirably adapted for books. If we may judge from the name "leaf" being still applied to the paper of books, we should imagine these leaves to have been formerly the prin-

cipal material in use. Fine job printing-News Review.

#### RAILROAD PROGRESS

C. & P. Schedule In 1865.

ployes of the C. & P. railroad company, engineers. has in his possession a schedule by which passenger trains were operated Pittsburg and Bellaire during the year will be added to the list of employes 1865. Upon examining the schedule on the road within the next few one can see that there is quite a dif- weeks. ference between it and the one now in use. The fast mail trains of 1865 would be rather slow accommedation trans today, as the time consumed by one of them in running from Wellsville over 15 minutes late, the result of to Cleveland was four hours and fifty- freight train No. 78 blocking the road five minutes. The mail train, or near Toronto. This freight train and the "flyer" as it is generally called, also No. 79 have been the cause of now travels the distance in a trifle over three hours.

Another difference is that the modern train is composed of never less Chief Train Dispatcher Rodgers yes teeth in the throat of a sheep and than four coaches and generally seven terday by a passenger conductor. The while the trains in 1865 seldom had matter will be investigated and remmore than two coaches and very small edied if possible. ones at that. Mr. Apple states that within a few years the grades on the C. & P. road will be made level, and the curves will be, to a certain extent, done away with. This, he says, will result in a mail train running between Eighteenth street, last evening. Vo-

Mr. Apple has been the special claim agent for the C. & P. with head quarters in Wellsville, for 37 years, Mrs. Hamilton, made the evening a which alone is evidence that he has been a faithful employe. He is an excellent conversationalist and can tell some very interesting stories concerning railroad life.

#### S. OF V. UNIFORMS

Captain Lloyd Considering Plans for Supplying the Whole Company.

Captain T. A. Lloyd informed a News Review reporter last evening that he and the remaining executive officers of the Sons of Veterans are considering plans by which every member of the company will be presented an elegant new military suit. There are nearly 50 members in the company and each possesses a suit, but they are now the worse for wear.

The suits will likely be bought from a Philadelphia establishment and will fever. be of the finest cloth. A meeting of the company will be called within grip fever. a few days for the purpose of furthering the plans and it is very probable that the suits will be ordered in less than two weeks.

Mr. Lloyd has become quite proficient gerously sick with appendicitis. in the use of arms and every member is looked upon with pride by Wellsville street, is very sick with the grip.

#### EXTRA COACH ADDED

To C. & P. Train 316 Running Between Bellaire And Wellsville.

Passengers who have had occasion to ride on train No. 316 from Bellaire to this city are rejoicing over the fact that an extra coach has been added to the train. This acquisition was made through a request of Thomas Rodgers, chief train dispatcher. who was informed of its necessity.

Mr. Rodgers was notified that through passengers were greatly crowded between Mingo and Wellsville by Italians, some of whom belong to section gangs in the Mingo mine. A hundred or more of these foreigners crowding against traveling men was indeed objectionable, and the action taken by the railway officials is being heartily commended.

#### FIREMAN IN DEMAND

A Number of New Men to Be Added to the C. & P. Force.

#### WELLSVILLE

#### RAILROAD PROGRESS

Well Illustrated by a Glance at the C. & P. Schedule In 1865.

ployes of the C. & P. railroad company, engineers. has in his possession a schedule by one can see that there is quite a dif- weeks, ference between it and the one now in use. The fast mail trains of 1865 would be rather slow accommodation five minutes. The mail train, or the "flyer" as it is generally called, now travels the distance in a trifle over three hours.

Another difference is that the modern train is composed of never less Chief Train Dispatcher Rodgers yes teeth in the throat of a sheep and than four coaches and generally seven terday by a passenger conductor. The drink the blood which spurts forth. while the trains in 1865 seldom had more than two coaches and very small edied if possible. ones at that. Mr. Apple states that within a few years the grades on the C. & P. road will be made level, and the curves will be, to a certain extent, done away with. This, he says, will result in a mail train running between Wellsville and Cleveland in two hours.

Mr. Apple has been the special claim agent for the C. & P. with head which alone is evidence that he has been a faithful employe. He is an excellent conversationalist and can tell some very interesting stories concerning railroad life.

#### S. OF V. UNIFORMS

Supplying the Whole Company.

Captain T. A. Lloyd informed a News Review reporter last evening that he and the remaining executive officers of the Sons of Veterans are considering plans by which every member of the company will be presented an elegant new military suit. There are nearly 50 members in the company and each possesses a suit, but they are now the worse for wear.

The suits will likely be bought from a Philadelphia establishment and will be of the finest cloth. A meeting of the company will be called within a few days for the purpose of furthering the plans and it is very probable Lisbon yesterday. that the suits will be ordered in less than two weeks.

This company uder the captaincy of Mr. Lloyd has become quite proficient gerously sick with appendicitis. in the use of arms and every member is looked upon with pride by Wellsville street, is very sick with the grip. eitizens

#### EXTRA COACH ADDED

To C. & P. Train 316 Running Be tween Bellaire And Wellsville.

Passengers who have had occasion to ride on train No. 316 from Bellaire to this city are rejoicing over the fact that an extra coach has been added to the train. This acquisition was made through a request of Thomas Rodgers, chief train dispatcher, who was informed of its necessity.

Mr. Rocgers was notified that through passengers were greatly crowded between Mingo and Wellsville by Italians, some of whom belong to section gangs in the Mingo mine. A hundred or more of these foreigners crowding against traveling men was indeed objectionable, and the action taken by the railway officials is being heartily commended.

#### FIREMAN IN DEMAND

A Number of New Men to Be Added to the C. & P. Force.

# MINERS DETERMINED.

Evidently Want Coal Weighed. Angry Gver Attitude of Anthracite Operators.

#### MAY DECLARE STRIKE THIS WEEK

Convention Considers In Executive Session Refusal of the Operators to Confer With Then -Outcome Promlematical, Says Press Committee

Shamokin, Pa., March 20.-Tha miners' convention yesterday began the consideration of the important questions which will decide whether the notices posted by the operators at the various collieries, announcing a continuance of existing conditions, shall be accepted or rejected.

President Nicholl, of district No. 1, speaking on the question of a scale committee, said:

#### Ready to Fight If Necessa. y.

"The mea of our district want their coal weighed, and they want it weighed so badly that they are ready to fight for it if necessary." This asser tion elicited vigorous applause.

The report of the special committee, consisting of President Mitchell and the district presidents, appointed at Indianapolis to seek a conference with the operators, was taken up. President Mitchell announced that letters had been received from the operators and he deemed it advisable for the convention to consider them

in executive session. During the executive session the convention appointed the committees on scale and en resolutions and heard the report of the special committee appointed to seek a conference with the operators. After adjournment evening President Mitchell, speaking for the press committee. made this statement:

#### Mitchell Spoke For Press Committee.

"The committee selected by the Hazleton convention last August to go to New York and see the highest authorities of the coal companies and intercede with the companies to have them withdraw their opposition to the examination of working cards and arrange for a joint conference. reported the refusal of E. B. Thomas, chairman of the directors of the Erie railroad, to receive the committee and the consequent failure of their efforts to make the necessary arrangements with him. The same committee, selected by the Indianapolis convention to. invite the operators to confer on the question of a wage scale for the year beginning April 1, 1902, reported the result of interviews with the railroad presidents and presented letters from the railroad companies in reply to the in vitations. The letters, while couched in different language, are all of the same purport—a positive refusal to confer with the representatives of their employes upon the wages to be paid and the conditions of employment which should obtain.

"It is needless to say that the delegates expressed keen disappointment, and the opposition to continuing work under the low wages and unfair conditions was unanimous and emphatic."

President Mitchell addressed the convention and he stated that he advised caution and prudence in arriving at any decision as to further action. He reviewed the efforts made by the officers of the union to maintain peace and harmony in the coal regions by the adoption of humane measures and the best methods of adjusting wage differences. He spoke also of the failure of the operators to respond to the employes' over-

#### Final Outcome Problematical.

"What the final outcome will be. is, at this time, purely problematical. was the concluding sentence of the

press committee's statement.
The indications here last night pointed strongly to a strike declaration, and it was said by some of the men that the declaration may come as early as Friday of this week. The operators' letters seem to have caused much bitter feeling among the

#### Position of the Operators.

Philadelphia, March 20.-According to a high railroad official, who was seen last night, President Mitchell requested a joint conference similar to that between bituminous miners and operators, with a view to agree ing upon a new wage scale which would be uniform throughout the an thracite coal fields. To this request the companies generally answered by letter, saying that it was impracticable to arrange a wage scale that would be uniform, because of the dif-

this shaped box-no other MacDonald.

The Trade Union And Its Benefits

By SAMUEL GOMPERS President of the American Federation of Labor

LL men agree in the abstract that to labor is always honorable and to the laborer honor is always due. In the concrete and IN GENERAL PRACTICE IT IS SIMPLY A QUESTION OF HOW MUCH PRODUCT CAN BE GOT OUT OF THE WORKERS AND HOW LITTLE IN RETURN THEREFOR THEY CAN BE FORCED TO ACCEPT IN

THE FORM OF WAGES. That there is a perceptible departure from so grave a misconception of economic wisdom is a source of gratification. That this change is due to the united efforts of the toilers no intelligent observer now disputes.

The workers produce more than enough to supply the essential wants of society and are happy in the thought that they are permitted to do so. It is, therefore, no fault of theirs that, despite our marvelous resources and wonderful industrial progress, conditions prevail inconsistent with our advanced state of civilization.

We are not wanting in appreciation of the progress in civilization. We grant you that the condition of the laborers has been somewhat ameliorated; but, on the other hand, an interrogation point presents itself at the end of all our boasts of civilization and

WHY IS IT THAT THOUSANDS OF HUMAN BEINGS, EARNEST. HONEST MEN, ARE PERIODICALLY CONFRONTED WITH CONDI-TIONS WHERE HARDSHIP AND MISERY ARE ENDURED EVEN SUCH AS SAVAGES KNEW NOTHING OF?

Even in our day the awful spectacle confronts us in the mills and factories, where men have been displaced by women and women again by children. Sad commentary upon our time to find idle men and busy children—children who should be in the playground or schoolroom rather than in the mill, factory and workshop.

. . . THAT ANY HOPE FOR MATERIAL IMPROVEMENT. MORAL ADVANCEMENT OR HIGHER ETHICAL CON-SIDERATION IS POSSIBLE WITHOUT THE ORGANIZA-TIONS OF LABOR FEW NOW SERIOUSLY BELIEVE. Yet when that which we call the labor question is discussed there are not many who will undertake to ascertain the laborer's side of it. I can do no more in connection with this than to suggest to those who assume to speak or write of the trade unions that they ascertain from the organized workers the causes which produce these organizations. It is our chief cause for gratification to find, without exception, that they who undertake to learn why we organize, how we organize, the methods we employ to attain justice and fair dealings, always become converts to and advocates of our cause. Unmerited and deep rooted prejudices disappear before the vistas of new knowledge acquired.

The organization of the trade union instills self respect, manhood and character, and its influence for good encompasses the whole human family. It seeks to systematically attain better relations between the employers and employed and compels a higher ethical consideration for the rights of all.

Strikes should be avoided; but when there is no other alternative to obtain redress for a grievance or to attain a right to which the workers are entitled I join with the martyred Lincoln in saving:

"THANK GOD, WE HAVE A SYSTEM OF LABOR WHERE THERE CAN BE A STRIKE! WHATEVER THE PRESSURE, THERE IS A POINT WHERE THE WORKINGMAN MAY STOP."

ferent conditions of mining in the different fields, and on the ground that nothing could come of it, declined to meet in a joint conference as proposed

Evidently Want Coal Weighed. Angry Gver Attitude of Anthracite Operators.

#### MAY DECLARE STRIKE THIS WEEK

Convention Considers In Executive Session Refusal of the Operators to Confer With Then -Outcome Prom lematical, Says Press Committee.

Shamokin, Pa., March 20.-Tha miners' convention yesterday began the consideration of the important questions which will decide whether the notices posted by the operators at the various collieries, announcing a continuance of existing conditions, shall be accepted or rejected.

President Nicholl, of district No. 1, speaking on the question of a scale committee, said:

#### Ready to Fight If Necessa. y.

"The mea of our district want their coal weighed, and they want it weigh ed so badly that they are ready to fight for it if necessary." This assertion elicited vigorous applause.

The report of the special committee, consisting of President Mitchell and the district presidents, appointed at Indianapolis to seek a conference with the operators, was taken up. President Mitchell announced that letters had been received from the operators and he deemed it advisable for the convention to consider them in executive session.

During the executive session the convention appointed the committees on scale and en resolutions and heard the report of the special committee appointed to seek a conference with the operators. After adjournment evening President Mitchell, speaking for the press committee. made this statement:

#### Mitchell Spoke For Press Committee.

"The committee selected by the Hazleton convention last August to go to New York and see the highest authorities of the coal companies and intercede with the companies to have them withdraw their opposition to the examination of working cards and arrange for a joint conference, reported the refusal of E. B. Thomas, chairman of the directors of the Erie railroad, to receive the committee and the consequent failure of their efforts to make the necessary ar rangements with him. The same committee, selected by the Indianapolis convention to invite the operators to confer on the question of a wage scale for the year beginning April 1, 1902, reported the result of interviews with the railroad presidents and presented letters from the railroad companies in reply to the invitations. The letters, while couched in different language, are all of the same purport—a positive refusal to confer with the representatives of their employes upon the wages to be paid and the conditions of employment which should obtain.

"It is needless to say that the delegates expressed keen disappointment, and the opposition to continuing work under the low wages and unfair conditions was unanimous and em phatic.'

President Mitchell addressed the convention and he stated that he advised caution and prudence in arriving at any decision as to further action. He reviewed the efforts made by the officers of the union to mainregions by the adoption of humane as proposed. measures and the best methods of adjusting wage differences. He spoke also of the failure of the operators to respond to the employes' over-

#### Final Outcome Problematical.

"What the final outcome will be, is at this time, purely problematical. was the concluding sentence of the press committee's statement.
The indications here last night

pointed strongly to a strike declaration, and it was said by some of the men that the declaration may come as early as Friday of this week. The operators' letters seem to have caused much bitter feeling among the

#### Position of the Operators.

Philadelphia, March 20 .- According to a high railroad official, who was seen last night, President Mitchell requested a joint conference similar to that between bituminous miners and operators, with a view to agree ing upon a new wage scale which would be uniform throughout the an thracite coal fields. To this request the companies generally answered by letter, saying that it was impracticable to arrange a wage scale that would be uniform, because of the dif-

## The Trade Union And Its Benefits

By SAMUEL GOMPERS President of the American Federation of Labor

LL men agree in the abstract that to labor is always honorable and to the laborer honor is always due. In the concrete and IN GENERAL PRACTICE IT IS SIMPLY A QUESTION OF HOW MUCH PRODUCT CAN BE GOT OUT OF THE WORKERS AND HOW LITTLE IN RETURN

THEREFOR THEY CAN BE FORCED TO ACCEPT IN THE FORM OF WAGES. That there is a perceptible departure from so grave a misconception of economic wisdom is a source of gratification. That this change is due to the united efforts of the toilers no intelligent observer now disputes.

The workers produce more than enough to supply the essential wants of society and are happy in the thought that they are permitted to do so. It is, therefore, no fault of theirs that, despite our marvelous resources and wonderful industrial progress, conditions prevail inconsistent with our advanced state of civilization.

We are not wanting in appreciation of the progress in civilization. We grant you that the condition of the laborers has been somewhat ameliorated; but, on the other hand, an interrogation point presents itself at the end of all our boasts of civilization and

WHY IS IT THAT THOUSANDS OF HUMAN BEINGS, EARNEST, HONEST MEN. ARE PERIODICALLY CONFRONTED WITH CONDI-TIONS WHERE HARDSHIP AND MISERY ARE ENDURED EVEN SUCH AS SAVAGES KNEW NOTHING OF?

Even in our day the awful spectacle confronts us in the mills and factories, where men have been displaced by women and women again by children. Sad commentary upon our time to find idle men and busy children-children who should be in the playground or schoolroom rather than in the mill, factory and workshop.

. . .

THAT ANY HOPE FOR MATERIAL IMPROVEMENT, MORAL ADVANCEMENT OR HIGHER ETHICAL CON-SIDERATION IS POSSIBLE WITHOUT THE ORGANIZA-TIONS OF LABOR FEW NOW SERIOUSLY BELIEVE. Yet when that which we call the labor question is discussed there are not many who will undertake to ascertain the laborer's side of it. I can do no more in connection with this than to suggest to those who assume to speak or write of the trade unions that they ascertain from the organized workers the causes which produce these organizations. It is our chief cause for gratification to find, without exception, that they who undertake to learn why we organize, how we organize, the methods we employ to attain justice and fair dealings, always become converts to and advocates of our cause. Unmerited and deep rooted prejudices disappear before the vistas of new knowledge acquired.

The organization of the trade union instills self respect, manhood and character, and its influence for good encompasses the whole human family. It seeks to systematically attain better relations between the employers and employed and compels a higher ethical consideration for the rights of all.

Strikes should be avoided; but when there is no other alternative to obtain redress for a grievance or to attain a right to which the workers are entitled I join with the martyred Lincoln in saying:

"THANK GOD, WE HAVE A SYSTEM OF LABOR WHERE THERE CAN BE A STRIKE! WHATEVER THE PRESSURE, THERE IS A POINT WHERE THE WORKINGMAN MAY STOP."

ferent conditions of mining in the different fields, and on the ground that nothing could come of it, detain peace and harmony in the coal clined to meet in a joint conference

#### Bryan Moves to Country.

Lincoln, Neb., March 20 .- W. J. Bryan is no longer a resident of the city of Lincoln. WHERE IS THE TURKEY RASTUS SEEKS?

# KAISER: "THAT IS SO."

Told a Trip to America Would Not Take Longer Than Did Visit to Jerusalem.

#### FINER WELCOME THAN TO HENRY

Would Have Been Given Him. He Was Told by American Naval Attache at Berlin-Kaiser Untanglas Hitch Made In Landing.

Berlin, March 20 .- Prince Henry landed at Kiel at dusk last evening and joined Princess Henry and his sons

That which took place between the royal brothers is, of course, not a matter concerning which those surrounding Emperor William and Prince Henry have been taken into the royal confidence further than to know that the brothers had a talk yesterday, lasting several hours, and that Prince Henry teld Emperor William his experiences from the beginning to the end of his trip.

The members of the prince's party were much amused while on their travels at the calls of "Speech! Speech!" from the crowds collected at wayside places and the cries of "How's your brother William?"

#### Once Alarmed For Prince's Safety.

The only occasion when the least alarm for the prince's safety was felt was when a member of the party saw a man enter the prince's car at one end while Prince Henry was on the platform at the other end, bowing to the crowd. This man was ordered out of the car. He hesitated and then withdrew. A few minutes later he was seen working his way through the crowd in order to get nearer to the prince. This man wore a long coat, under which anything might have been concealed. A member of the prince's staff pointed out this person to John E. Wilkie, chief of the secret service, who accompanied the prince on his trip, who at once said:

"Why, that is one of my men." Prince Henry does not know why night at 10:20 o'clock. He was conhe did not visit the stock yards at nected with Oberlin college for 68 Chicago, except that he was advised years and had served longer than by Mr. Wilkie that it would be bet- any college official in the United ter to omit this part of the program, States. as the Polish workmen at the stock yards might create a disturbance. Mr. Wilkie explained the reason of this change in the program to the ewner of the packing house it was intended to visit, and, although arrangements were made to see the packing houses privately, it was later found inconvenient to do so.

#### Praise For Chief Wilkie.

Mr. Wilkie is spoken of in the text of the Russo-French conjoint warmest terms by Prince Henry's declaration, sent March 16, to the companions for his discretion and his Austrian, Belgian. British, American, careful arrangements for the prince's Spanish, German, Italian, Dutch, Chi-

#### **HOW IT'S BACKED**

Undoubted Reliability Expressed In East Liverpool Endorsements. What you want is home indorse-

ment.

The backing of people you know. East Liverpool proof for East Liverpool people.

That's what follows here.

Surely no better backing can be had than the following statement from Mrs. Edward Orr, of 220 Thompson street, who says: "My sister, Mrs. Borland, of Pittsburg, while visiting us. recommended Doan's Kidney Pills so highly that I was induced to try them. I had severe attacks of kidney complant. Sometimes I was so bad I ould not get up. Many times my neigh. bors came and found me lying on the lounge suffering, when I intended to do a big day's work. I was so miserable I could do nothing. After my sister told me of the pills I made up my mind to try them and got a box at the W. & W. pharmacy. They did just where they secured a large amount what they claimed they would do-cured me well and sound in a few days. My little girl was feeling poorly and had a sallow complexion for some time. I gave her a few doses and after the treatment she felt splendidly."

Sold for 50 cents per box by all dealers. Foster-Milburn company, Buffalo, N. Y., sole agents for hte United States.

# KAISER: "THAT IS SO."

Told a Trip to America Would Not Take Longer Than Did Visit to Jerusalem.

#### FINER WELCOME THAN TO HENRY

Would Have Been Given Him, He Was Told by American Naval At tache at Berlin-Kaiser Untanglis Hitch Made In Landing.

Berlin, March 20 .- Prince Henry landed at Kiel at dusk last evening and joined Princess Henry and his

That which took place between the royal brothers is, of course, not a matter concerning which those surrounding Emperor William and Prince Henry have been taken into the royal confidence further than to know that the brothers had a talk yesterday, lasting several hours, and that Prince Henry teld Emperor William his experiences from the beginning to the end of his trip.

The members of the prince's party were much amused while on their travels at the calls of "Speech! Speech!" from the crowds collected at wayside places and the cries of "How's your brother William?"

#### Once Alarmed For Prince's Safety.

The only occasion when the least alarm for the prince's safety was felt was when a member of the party saw a man enter the prince's car at one end while Prince Henry was on the platform at the other end, bowing to the crowd. This man was ordered out of the car. He hesitated and then withdrew. A few minutes later was seen working his way through the crowd in order to get nearer to the prince. This man wore a long coat, under which anything might have been concealed. A member of the prince's staff pointed out this person to John E. Wilkie, chief of the secret service, who accompanied the prince on his trip, who at once said:

"Why, that is one of my men." Prince Henry does not know why he did not visit the stock yards at Chicago, except that he was advised by Mr. Wilkie that it would be better to omit this part of the program, States. as the Polish workmen at the stock yards might create a disturbance. Mr. Wilkie explained the reason of this change in the program to the owner of the packing house it was intended to visit, and, although arrangements were made to see the packing houses privately, it was later found inconvenient to do so.

#### Praise For Chief Wilkie.

careful arrangements for the prince's Spanish, German, Italian, Dutch, Chi-

There was an awkward hitch in the declaration is as follows: disembarkation Tuesday of Prince for the prince's descent from the on the quay, perceived the difficulty, he characterized the landing stage as began to give instructions as to how Prince Henry's landing should be action of other powers, or a repetimade. He caused a gang plank to be lifted up to the height of the Deutch- impairing China's integrity and free Prince Henry walked to the quay.

#### If the Emperor Had Come.

Emperor William spoke to commander William H. Beehler, the United States naval attache at Berlin who

That's what follows here.

ment.

Surely no better backing can be had than the following statement from Mrs. Edward Orr, of 220 Thompson street, who says: "My sister, Mrs. Borland, of Pittsburg, while visiting us. recommended Doan's Kidney Pills so highly that I was induced to try them. I had severe attacks of kidney complant. Sometimes I was so bad I ould not get up. Many times my neigh. bors came and found me lying on the lounge suffering, when I intended to do a big day's work. I was so miserable I could do nothing. After my sister told me of the pills I made up my mind to try them and got a box at the W. & W. pharmacy. They did just where they secured a large amount what they claimed they would do-cured me well and sound in a few days. My little girl was feeling poorly and had a sallow complexion for some time. I gave her a few doses and after the treatment she felt splendidly."

Sold for 50 cents per box by all dealers. Foster-Milburn company, Buffalo, N. Y., sole agents for hte United States.

#### To Owners of Vacant Lots:

We are about to publish the most complete sale list of vacant lots ever offered to the purchasing public of East Liverpool; its scope will cover from the state line to Walkers; and from the river to Thompson's Boulevard. It will be issued in the form of a supplement, to each of our daily papers on Saturday, March 29th; complete description, location and price of your lot will be given in it if you will place it on sale with us or or before March 22d. In order that the public of East Liverpool may appreciate this list and preserve it we will give on its reverse side a complete up-to-date map of East Liverpool, showing and naming each street, alley, addition, public building, works, etc., and useful statistical information of the city. Every lot in the city is saleable. Place yours with us at once if you desire to sell.

#### To Prospective Purchasers of Vacant Lots:

It will pay you to wait until March 29th before purchasing and see what is on sale with us. Our map will help you understand the city and determine where you want to live or invest. It is a well established fact that our prices are always under. We will save you money, time and serve you in many ways if you will let us. Delay your purchasing until our list

#### To the General Public:

We are about to place in your hands a complete up-to-date map of East Liverpool. We trust that though we have an adverist-ing profit through it that it will be of convenience to you and will help you locate the street upon which you live and know its name and that you will co-operate in getting our city council to renumber our streets, rename some of them and above all place the names at the corner of the intersecting streets.

Yours Truly,

# Real Estate Dealer.

P. S. Extra copies of the News Review of March 29th will be printed that all desiring maps may be supplied..

# GOOD ROADS LEGISLATION IS MAKING SOME PROGRESS

House Passes Bill For Commissioners In Columbiana and Stark.

May Get the Authority They Want Through the Worthington Bill.

BEAL LOCAL OPTION MEASURE

Want Legislation.

From a Staff Correspondent.

Columbus, March 20.-The Metzger road bill, which applies to Columbiana by the house and is now half a law. It abolishes road supervisors and creates in their stead road commissioners. It also provides for a competitive system of bidding for material for the improvement of roads

The Crist bill authrozing the residents of St. Clair township, Columbiana county, to issue bonds for the improvement of Calcutta road, has been merged into a bill introduced by Representative Worthington, of Belmont county; for the reason that both meas- more. ures provide for practically the same purpose, and to enact both would have the effect of annulling each.

The residents of St. Clair township can receive the relief they desire under the Worthington bill, and as it was introduced first, Mr. Crist readily consented to the withdrawal of his measure with the understanding that its passage would be incorporated in the former bill.

Mr. Crist presented a bill Wednes day afternoon to provide for the publication and distribution of the reports of the state geologist. The issue shall consist of a minimum number of 3,000 copies, and the publication and distribution shall be under the control of the state printing commission. One thousand copies are to be distributed pro rata among the members of the general assembly, and an equal number are to be distributed by the state ge ologist in exchange for other surveys, and with individuals whose services have been used in the collection and preparation of the matter for such bulletins. One hundred volumes are to be placed in the state library. The commission may at its discretion order the publication of extra copies. Those remaining after distribution has been made may be placed on sale at a price equal to the net cost of printing and binding.

The taxation committee of the senate has recommended the passage of the Beal local option bill, and it has been made a special order for next Wednesday. The committee made many changes in the wording of the bill, but did not change its intent or purpose. The revision committee of the house mutilated the measure fearfully and left it in such shape that it was necessary for the senate committee to doctor up its phraseology. The liquor people put up a stiff fight to have the bill amended in the senate so as to require publicity of the signatures of those petitioning for local option, but the committee refused to allow this provision to go in. The temperance advocates are jubilant over this defeat for their opponents for the provision, if adopted, would make the measure a dead letter. Business and professional men would refuse to sign in many cases because of the resultant injury to their business if publicity were required.

The Painter canal abandonment bill is said to be a dead issue. The committee on the state board of public works has decided to report the substitute for this bill, which was drawn by Senator Sieber, of Akron. and Attorney McHugh, of Cincinnati. The substitute provides for an increase in the rentals of canal privileges, which, it is claimed, will make the operation of these waterways profita-

Burgess claimed a no arrangements for the manufacture share of the earnings of the plant for of his device. He is, however, negoa note of \$6,000.

Columbiana County's Insane. Lisbon, March 20. - (Special)

The monthly report of the Massillon salers and manufacturers of mineral state hospital authorities states that waters and other soft drinks was Columbiana county has 129 patients killed in committee Tuesday after in the institution. This is 23 in exnoon. The measure was drawn to cess of the county's quota, which is 106.

The electric car pictured herewith was built in Germany with the expectation that it would speed over terra firms at the rate of 125 miles an hour. It failed to to do this, but passengers were whirled along at the rate of 90 miles per hour, which speed has never been equaled or excelled by any other electric car. The car runs over a new electric line connecting Berlin and Hamburg.

# OF J. M. M'KINNEY

Promises to Be of Great Usefulness.

Capable of Being Used Three Times. And Is Likely to Result in a Labor Possesses Many Other Advantages for Those Who Send Valuable Articles Through the Mails.

A patent has just been granted to out doubt destined to fill a want which home of their own before many others in business who find it neces graphical union, was the first to menvaluable nature, handled by them.

Elks Lodge Anniversary Celebrated in appearance like the ordinary one one at Massillon was dedicated some envelope. It is because of the simi-The tenth anniversary of the Elks larity in design to that of the common favoring it. There is not a town in kind now in use that makes Mr. Mcticable. It retains all the conveniences both as to size and usefulness of

The invention has for its object a of ceremonies and filled that position device which carries an auxiliary flap which permits the use of the envelope three times without any changing, further than to moisten the gum on the extra flap.

It is designed more particularly for use by jewelers, locksmiths and others in similar business, who have occasion to send small articles to manufacturers. A ring or other article may be placed in the envelope, mailed to a manufacturer by a dealer and returned again to the dealer, who may for the second time open it, and after inspecting the article, place it in the same receptacle and for the third time seal it.

The most important claim made for the new invention is that it will do away with the trouble and confusion which frequently results from the loss of envelopes now used by them in transmitting valuables. Each one of the receptacles contains the name of the person owning the ring or whatelers. At present, if an envelope becomes lost it frequently occasions much difficulty in figuring out to whom the valuables belong, when they are turned from the manufacturers.

By the use of Mr. McKinney's envelone all of the inconveniences now encountered will be eliminated. The envelope can be made in any size. It is in every way as strong and useful as any ever used and another claim made for it is that the cost of production will be no barrier to its ready

Having only just received the patent; Mr. McKinney has as yet made tiating with different manufacturers and expects soon to have it ready for the market.

Got Off With a Fine.

Lisbon, March 20. - (Special) - Township Trustees Don't Want to Francis Pryor, colored, who was arrested Saturday evening for abusing his children, was fined \$3 and costs by Mayor Farrell.

Caught Robbing a Second-Hand Store.

And Once Served a Term In the Reformatory at Mansfield.

THE POLICE ARE NOT SURPRISED

To Learn That He Is in Trouble Again, As He Is Said to Have Been Arrested Numerous Times on Charges of Theft.

A dispatch from Zanesville states that James L. Landis, aged 24 years. is in jail in that city, charged with the robbery of a second-hand store. The telegram states that the young man was caught in the act of carrying out goods from the store.

Landis is an ex-resident of East Liverpool, having but recently left here. The crime for which he is now under arrest is not his first offense. The records now in charge of Mayor Davidson show that the young man was at one time a conspicuous figure in local police circles.

On October 19, 1899, Landis was arrested for larceny. On this occasion he stole a lot of knives, forks and spoons from James E. Bowers, then in the hardware business here. It was also proven against Landis that he stole 10 yards of dress trimmings from Jennie Nickels.

Mayor Bough, who was then in of fice, bound Landis over to common pleas court with the result that he was sentenced to a two-year term in the being arrested on the larceny charge the young man was in jail numerous times because of petty thefts he was accused of having committed. He was known to the police here as an all-around crook, and is present trouble is no surprise to the officers who

Otis, in continuing his testimony before the senate committee yesterday. said in part:

Referring to his proclamation, he said he expressly omitted therefrom the word "sovereignty," because the Filipinos attached to it the meaning which the word conveyed to them while under the domination of Spain. Senator Carmack called his attention to the difference between the language used by the president in his instructions and that contained in his (Otis') proclamation, and asked why he had also omitted the words "control," "government," "lawful rule" and "authority must remain su-

General Otis explained that when these instructions of the president were received he was somewhat surprised. He was afraid they would be disastrous and assist the Aguinaldo government to excite the people of Luzon. General Otis said he told Admiral Dewey, who had called on him The Crumpacker resolution to the following day, that he did not Representative Hay, of of the islands from Washington and

#### Good Men Feared Assassination.

The trouble in Luzon, General Otis said, was caused by the good men being overthrown, because of fear of assassination

"Until the time of the ratification army there for the purpose of asserting and maintaining the independence of that island by armed force if necessary?" asked Senator Patter-

#### POTTERY NEWS

Considerable trouble is being exper enced by the workmen at the new addition to Laughlin No. 2, in constructing the tank for the large agitator. The hole is about 6 1-2 feet deep, and when the workmen reported for duty vesterday morning the hole contained phoid fever. about three feet of water. Pumps were procured, but the water came in as fast as it could be pumped out. Yesterday afternoon six men were engaged at the pump, taking turns of three men each. The contractors expect to have enough water out of the hole to permit the bricklayers to go to work today. The walls will be of brick and cement, and there will be little chance for leakage when the wall is once erected.

Several hundred dollars will be expended by the American Sewer Pipe company at its East End plant within a short time. Arrangements have been made to install a new engine of a larger horsepower than the one now in use, and this was expected to arrive at the factory this week. Some delay has been occasioned, however, and it may not be here for several days. The plant will be idle while the engine is Breen. being placed in position, the suspension to be taken advantage of to make other improvements.

Announcement has been made that work on the improvements to the Smith & Phillips will be commenced not later than the first of the month. The alterations will consist of the erection of an additional kiln and the removal of the sagger shop to a new building which will be erected west of the present sagger room.

Robert Finley, of Sebring, formerly a member of the local police force, was in the city yesterday visiting relatives. Mr. Finley is employed as a kilnhand at the Sebring pottery, and states the factory has lost practically no time since the holidays. He may return here but has not definitely de-

### TO FIGHT INDIANS

A TWO-YEAR-OLD CHID PROCUR-ED A PISTOL.

Then Boarding a Car the Tot Started! for the West-Policeman Stopped Her.

Carrying a pistol in her hand and declaring her intention of going west; to fight Indians, a two-year-old daughter of Charles Richardson, of Walnut street, was found on a street car this

afternoon by Policeman Stafford. The officer, after making numerous inquiries, learned where the little girl lived and took her home. She had accidentally come upon the pistol, which her father had placed away in a drawer, and then decided to begin an onslaught on the red skins.

When asked by the policeman what injuns and grasshoppers.

#### FIRST ANNUAL EXHIBIT

Of the East Liverpool Camera Club Contains Some Highly Creditable Work.

The first annual exhibit of the East Liverpool Camera club has been arranged and specimens of work of the members of this organization are now on view in windows on Fifth street. These views and photographs are the work of each individual member and judging from the present exhibit such work has not been excelled in this city, and it might be said with some degree of accuracy, in eastern

There is in the exhibition a large photograph of Miss Nancy Taylor, of Third street, the work of Joseph Harrington, which is indeed clever, notwithstanding it is the work of an amateur. The photograph was taken through a fine silk screen, and it is pronounced the cleverest piece of work exhibited.

The club has decided to make the exhibit an annual affair, and additional pictures will be added to those now on view within a few days.

Redman, General Superintendent, Corcoran Building, Opposite United States Treasury, Washington,

#### A Blind Man's Perception. One of the priests of St. Francis Xa-

vier's church devotes himself to work among the blind and the deaf and dumb. He says that, contrary to the general impression, the blind are peculiarly happy and fond of jokes.

Illustrative of this, not long since

a blind acquaintance of his whose re-

maining senses, like that of all blind, are exceptionally keen, was in a room where were some lady visitors. Finally one of the ladies left.

"What remarkably white and perfect teeth that lady has!" laughingly remarked the blind man.

"Why, how do you know?" asked Father Stadelman.

"Because for the last half hour she has done nothing but laugh!"-New York Times.

#### Leaves Used For Paper.

Leaves of trees were used for writing purposes very early by the Egyptian's and probably by the Greeks. The Hindoos continued the use of this material she expected to do with the weapon until within a few centuries. Even at not uncommon in the south of India and the island of Ceylon. The leaves of some Asiatic trees, from their size and smoothness, are admirably adapted for books. If we may judge from the name "leaf" being still applied to the paper of books, we should imagine these leaves to have been formerly the prin-

Well Illustrated by a Glance at the C. & P. Schedule

ployes of the C. & P. railroad company, engineers. has in his possession a schedule by between Pittsburg and Cleveland and one can see that there is quite a dif- weeks, ference between it and the one now in use. The fast mail trains of 1865 would be rather slow accommodation to Cleveland was four hours and fiftyfive minutes. The mail train, or now travels the distance in a trifle

than four coaches and generally seven terday by a passenger conductor. The drink the blood which spurts forth. while the trains in 1865 seldom had matter will be investigated and remmore than two coaches and very small ones at that. Mr. Apple states that within a few years the grades on the C. & P. road will be made level, and the curves will be, to a certain extent, done away with. This, he says, will result in a mail train running between Wellsville and Cleveland in two hours.

Mr. Apple has been the special claim agent for the C. & P. with head quarters in Wellsville, for 37 years, which alone is evidence that he has been a faithful employe. He is an excellent conversationalist and can tell some very interesting stories concerning railroad life.

#### S. OF V. UNIFORMS

Supplying the Whole Company.

Captain T. A. Lloyd informed a News Review reporter last evening that he and the remaining executive officers of the Sons of Veterans are considering plans by which every member of the company will be presented an elegant new military suit. There are nearly 50 members in the company and each possesses a suit, but they are now the worse for wear.

The suits will likely be bought from a Philadelphia establishment and will be of the finest cloth. A meeting of the company will be called within grip fever. a few days for the purpose of furthering the plans and it is very probable Lisbon yesterday. that the suits will be ordered in less

#### EXTRA COACH ADDED

To C. & P. Train 316 Running Be tween Bellaire And Wellsville.

Passengers who have had occasion to ride on train No. 316 from Bellaire to this city are rejoicing over the fact that an extra coach has been added to the train. This acquisition was made through a request of Thomas Rodgers, chief train dispatcher, who was informed of its necessity.

Mr. Rodgers was notified that passengers were greatly erowded between Mingo and Wellsville by Italians, some of whom belong to section gangs in the Mingo mine. A hundred or more of these foreigners crowding against traveling men was indeed objectionable, and the action taken by the railway officials is being heartily commended.

#### FIREMAN IN DEMAND

A Number of New Men to Be Added to the C. & P.

Force. F. C. Thomas, road foreman of en-

## MINERS DETERMINED.

Evidently Want Coal Weighed. Angry Over Attitude of Anthracite Operators.

#### MAY DECLARE STRIKE THIS WEEK

Convention Considers In Executive Session Refusal of the Operators to Confer With Then -Outcome Promlematical, Says Press Committee.

Shamokin, Pa., March 20.-Tha miners' convention yesterday began the consideration of the important questions which will decide whether the notices posted by the operator. at the various collieries, announcing a continuance of existing conditions, shall be accepted or rejected.

President Nicholl, of district No. 1, speaking on the question of a scale committee, said:

#### Ready to Fight If Necessa. y.

"The mea of our district want their coal weighed, and they want it weighed so badly that they are ready to fight for it if necessary." This asser tion elicited vigorous applause.

The report of the special committee, consisting of President Mitchell and the district presidents, appointed at Indianapolis to seek a conference with the operators, was taken up. President Mitchell announced that letters had been received from the operators and he deemed it advisable for the convention to consider them in executive session.

During the executive session the convention appointed the committees on scale and on resolutions and heard the report of the special committee appointed to seek a conference with operators. After adjournment evening President Mitche!! speaking for the press committee made this statement

#### Mitchell Spoke For Press Committee.

"The committee selected by the Hazleton convention last August 10 go to New York and see the highest authorities of the coal companies and intercede with the companies to have them withdraw their opposition to the examination of working cards and arrange for a joint conference reported the refusal of E. B. Thomas chairman of the directors of the Eric railroad, to receive the committee and the consequent failure of their efforts to make the necessary ar rangements with him. The same committee, selected by the Indianap olis convention to. invite the operators to confer on the question of wage scale for the year beginning April 1, 1902, reported the result of interviews with the railroad presi dents and presented letters from the ranifold companies in reply to the invitations. The letters, while couched in different language, are all of the same purport-a positive refusal to confer with the representatives of their employes upon the wages to be paid and the conditions of employment which should obtain.

"It is needless to say that the dele gates expressed keen disappointment, and the opposition to continuing work under the low wages and unfair conditions was unanimous and emphatic.'

President Mitchell addressed the convention and he stated that he advised caution and prudence in arriv ing at any decision as to further action. He reviewed the efforts made by the officers of the union to mainregions by the adoption of humane as proposed. measures and the best methods of adjusting wage differences. He spoke also of the failure of the operators to respond to the employes' over-

#### Final Outcome Problematical.

"What the final outcome will be. is, at this time, purely problematical. was the concluding sentence of the press committee's statement.

The indications here last night pointed strongly to a strike declaration, and it was said by some of the men that the declaration may come as early as Friday of this week. The operators' letters seem to have caused much bitter feeling among the

#### Position of the Operators.

Philadelphia, March 20.-According to a high railroad official, who was seen last night, President Mitchell requested a joint conference similar to that between bituminous miners and operators, with a view to agree ing upon a new wage scale which would be un form throughout the an thracite coal fields. To this request the companies generally answered by letter, saying that it was impracticable to arrange a wage scale that would be uniform, because of the dif-

# Trade Union And Its Benefits

By SAMUEL GOMPERS President of the American Federation of Labor

LL men agree in the abstract that to labor is always honorable and to the laborer honor is always due. In the concrete and IN GENERAL PRACTICE IT IS SIMPLY A QUESTION OF HOW MUCH PRODUCT CAN BE GOT OUT OF THE WORKERS AND HOW LITTLE IN RETURN

THEREFOR THEY CAN BE FORCED TO ACCEPT IN THE FORM OF WAGES. That there is a perceptible departure from so grave a misconception of economic wisdom is a source of gratification. That this change is due to the united efforts of the toilers no intelligent observer now disputes.

The workers produce more than enough to supply the essential wants of society and are happy in the thought that they are permitted to do so. It is, therefore, no fault of theirs that, despite our marvelous resources and wonderful industrial progress, conditions prevail inconsistent with our advanced state of civilization.

We are not wanting in appreciation of the progress in civilization. We grant you that the condition of the laborers has been somewhat ameliorated; but, on the other hand, an interrogation point presents itself at the end of all our boasts of civilization and

WHY IS IT THAT THOUSANDS OF HUMAN BEINGS, EARNEST. HONEST MEN, ARE PERIODICALLY CONFRONTED WITH CONDI-TIONS WHERE HARDSHIP AND MISERY ARE ENDURED EVEN SUCH AS SAVAGES KNEW NOTHING OF?

Even in our day the awful spectacle confronts us in the mills and factories, where men have been displaced by women and women again by children. Sad commentary upon our time to find idle men and busy children—children who should be in the playground or schoolroom rather than in the mill, factory and workshop.

THAT ANY HOPE FOR MATERIAL IMPROVEMENT, MORAL ADVANCEMENT OR HIGHER ETHICAL CON-SIDERATION IS POSSIBLE WITHOUT THE ORGANIZA-TIONS OF LABOR FEW NOW SERIOUSLY BELIEVE. Yet when that which we call the labor question is discussed there are not many who will undertake to ascertain the laborer's side of it. I can do no more in connection with this than to suggest to those who assume to speak or write of the trade unions that they ascertain from the organized workers the causes which produce these organizations. It is our chief cause for gratification to find, without exception, that they who undertake to learn why we organize, how we organize, the methods we employ to attain justice and fair dealings, always become converts to and advocates of our cause. Unmerited and deep rooted prejudices disappear before the vistas of new knowledge acquired.

The organization of the trade union instills self respect, manhood and character, and its influence for good encompasses the whole human family. It seeks to systematically attain better relations between the employers and employed and compels a higher ethical consideration for the rights of all.

Strikes should be avoided; but when there is no other alternative to obtain redress for a grievance or to attain a right to which the workers are entitled I join with the martyred Lincoln in saving:

"THANK GOD, WE HAVE A SYSTEM OF LABOR WHERE THERE CAN BE A STRIKE! WHATEVER THE PRESSURE, THERE IS A POINT WHERE THE WORKINGMAN MAY STOP."

ferent conditions of mining in the different fields, and on the ground that nothing could come of it, detain peace and harmony in the coal clined to meet in a joint conference

# KAISER: "THAT IS SO."

Told a Trip to America Would Not Take Longer Than Did Visit to Jerusalem.

#### FINER WELCOME THAN TO HENRY

Would Have Been Given Him, He Was Told by American Naval Attache at Berlin-Kaiser Untanglis Hitch Made In Landing.

Berlin, March 20 .- Prince Henry landed at Kiel at dusk last evening and joined Princess Henry and his

That which took place between the royal brothers is, of course, not a matter concerning which those sur rounding Emperor William and Prince Henry have been taken into the royal confidence further than to know that the brothers had a talk yesterday, lasting several hours, and that Prince Henry teld Emperor William his experiences from the beginning to the end of his trip.

The members of the prince's party were much amused while on their travels at the calls of "Speech! Speech!" from the crowds collected at wayside places and the cries of "How's your brother William?"

#### Once Alarmed For Prince's Safety.

The only occasion when the least alarm for the prince's safety was felt was when a member of the party saw a man enter the prince's car at one end while Prince Henry was on the platform at the other end, bowing to the crowd. This man was ordered out of the car. He hesitated and then withdrew. A few minutes later he was seen working his way through the crowd in order to get nearer to the prince. This man wore a long coat, under which anything might have been concealed. A mem. Had Been Connected With Oberlin ber of the prince's staff pointed out this person to John E. Wilkie, chief of the secret service, who accompanied the prince on his trip, who at once said:

"Why, that is one of my men." Prince Henry does not know why he did not visit the stock yards at Chicago, except that he was advised by Mr. Wilkie that it would be bet any college official in the United ter to omit this part of the program, States. as the Polish workmen at the stock yards might create a disturbance. Mr. Wilkie explained the reason of this change in the program to the owner of the packing house it was intended to visit, and, although arrangements were made to see the packing houses privately, it was later found inconvenient to do so.

Y. Good Agents wanted. Write them.

HE WAY .... ....TO PROSPERITY.

A successful man once said this was his motto:

Early to bed, early to rise, hustle ike thunder, and advertise. Advertising in the News Review ant columns will bring you success,

Nearly everyone in East Liverpool reads the News Review want columns. You can get anything you want, dispose of anything you have, by advertising in News Review want columns. News Review want ads cost little,

Home-Seekers' Excursions via Penna Lines.

but bring big results.

### To Owners of Vacant Lots:

We are about to publish the most complete sale list of vacant lots ever offered to the purchasing public of East Liverpool; its scope will cover from the state line to Walkers; and from the river to Thompson's Boulevard. It will be issued in the form of a supplement, to each of our daily papers on Saturday, March 29th; complete description, location and price of your lot will be given in it if you will place it on sale with us or or before March 22d. In order that the public of East Liverpool may appr sciate this list and preserve it we will give on its reverse side a complete upto-date map of East Liverpool, showing and naming each street, alley, addition, public building, works, etc., and useful statistical information of the city. Every lot in the city is saleable. Place yours with us at once if you desire to sell.

#### To Prospective Purchasers of Vacant Lots:

It will pay you to wait until March 29th before purchasing and see what is on sale with us. Our map will help you understand the city and determine where you want to live or invest. It is a well established fact that our prices are always under. We will save you money, time and serve you in many ways if you will let us. Delay your purchasing until our list

#### To the General Public:

We are about to place in your hands a complete up-to-date map of East Liverpool. We trust that though we have an adverist-ing profit through it that it will be of con-venience to you and will help you locate the street upon which you live and know its name and that you will co-operate in getting our city council to renumber our streets, rename some of them and above all place the names at the corner of the intersecting streets.

Yours Truly,

# Real Estate Dealer.

P. S. Extra copies of the News Review of March 29th will be printed that all desiring maps may be supplied ..

#### **FINE FURNITURE**

WITH THE BEST.

Quartered Oak, Durable And Handsome.

One of the most pleasing features in connection with the equipment of the new Carnegie library is the furniture which was installed this week It is entirely in keeping with the elegant interior of the main floor,

In all 28 tables and 14 dozen chairs are distributed throughout the several departments, and upon entering one cannot but be impressed by the elegance and harmony of the arrange-

In the spacious reading room to the left of the main hall are located nine large tables, with sufficient chairs to accommodate patrons in an acceptable and satisfactory manner. Three of these tables were especially designed for the convenience of boys and girls. The tables are lower and the chairs are made to correspond.

The equipment was furnished by Lewis Bros., the largest and most upto-date furniture house in Eastern Ohio, whose facilities are unlimited and stock of the very best. An extra effort has been made to have the furniture of the Carnegie library second to none in the country, and how well Lewis Bros. have succeeded can best be appreciated by a visit to the build-

Every piece of furniture is of quarter-sawed golden oak, and is calculated to last for all time. The chairs are fitted with box seats and rubber tips. These latter can be renewed when worn, and are designed to render the moving of chairs absolutely noiseless.

CARNEGIE LIBRARY SUPPLIED A MOUNTAIN OF VALUABLE MIN-ERAL VISIBLE.

Second to None in the Country-Of Highly Encouraging Report of Green Mountain Mining Properties.

> The following statement from one of the contractors doing the development work of the Green Mountain Mining and Milling company's property, will be of interest to the many stockholders of East Liverpool:

Cunningham Gulch, San Juan County, Colorado, March 10, 1902.

Green Mountain Mining and Milling Company, East Liverpool, Ohio.

Gentlemen-As Mr. Bielefeldt told me it was your wish for me to state my opinion as to the value of the veins whereon I am working at present under contract, I would say that I have been working in all the principal mines in San Juan, San Miguel and Ouray counties, Colorado, and must say these two veins on the Oscella and King William ground, in which I am working now, will alone make as big a mine as I have worked in. There is more ore in sight with the development work now done than many a mine with three times the amount of

Having gone over the Flat Broke Treasury Extension and four or five other claims of your group last summer I found a perfect net work of veins all over the ground with heavy mineral in all of them.

If properly worked I think you will have the largest mine of any I have seen. In one word you have a mountain of mineral which you will be able to work for years and years, and you will also be able to mill and ship your product with less expense than any mine around this district, because most mines have tram ways from one thousand to five thousand feet long over which they must send their ore to the mill. You can arrange so as to dump your ore direct from the tunnel car into the mill, and by so doing save at least 30 to 40 cents per ton.

I am Respectfully ORESTES SCHWARTZ.
